

GIORGIO CONTERNO

PIEDMONT

In the marvelous setting of Monforte d'Alba and precisely in the Ginestra area, a cru listed among the most important qualitative plots of the Langa with an unrepeatable terroir, the Paolo Conterno winery produces its wines handing down the passion for viticulture for four generations now.

Founded in 1886 by the grandfather of the current owner, who bears his name, his sons Giorgio and Marisa together with their parents and young grandchildren are currently running the company.

A correct balance unites tradition and the use of new technologies that can improve the daily care of the vineyards and the cellar operations.

The company owns ten vineyards, all located in the "Ginestra" area, mostly cultivated with Nebbiolo varieties and, to a lesser extent, Barbera and Dolcetto.

The wines age in 35-hectolitre French oak barrels within the walls of the original cellar which has been in operation since 1886. The territory, the favourable microclimate, the happy exposure of the vineyards, an established tradition: these are the factors that allow a absolute quality production.
